

DAWN OF THE HUNTER'S IDYL

September Days with the Chicken and Approach of the Wild Fowl.

WHISPERS OF THE WHIRLING WHEEL

Last Yelps from the Bleachers—Fair Fans at the Game—Races at Lincoln and St. Joe—Chaper Guns and the Usual Entertaining of the Sports.

ROBABLY there is no class of men who are living in such a state of feverish expectancy just now as the sportsmen. September, October and November are the months that make up the gunner's idyl. There is no time in the year when the sportsman is so much more than a sportsman as in the months of the year. September is here—the first of the month for the sportsman of the dog and gun, and broad prairie, hillside, valley and morass will soon reverberate with the thrilling report of the hammer.

The chicken season was up Saturday, September 1, and already there have been scores of parties left this city for the summer. We know grounds throughout this state, South Dakota and Iowa. Reports as to the plentifulness of birds vary. Some have it that the crop is larger than for a long season, others that the birds are scarcer than ever. A preponderance of evidence, however, has it that the birds are as plentiful in all favorable localities as they have been for ten years. And this is quite probable, too, for notwithstanding the unprecedented drought with which the western country has been visited, there certainly never has been a more propitious season for migration, hatching and rearing the young, and have yet to hear from any authentic source of any material destruction of the birds from a want of moisture. With the quail it is the same, and in many instances two broods have been seen in the same season. The early, and the dry weather materially aided the young birds in their growth, and as early as the 20th of July I saw young quail more than half grown. The second crop of birds will probably not reach their full strength and size until late in the fall, and hunters will find their rambles over across numerous broods of quail to shoot. However, the quail shooting does not open up until October 1, and in the meantime, the chicken, grouse and other birds will be along, and above all, chicken, grouse, quail and other birds, the sportsman will have been exceedingly plentiful this summer, but with the first symptoms of frost will be their way to the north. The second crop of birds will probably not reach their full strength and size until late in the fall, and hunters will find their rambles over across numerous broods of quail to shoot. However, the quail shooting does not open up until October 1, and in the meantime, the chicken, grouse and other birds will be along, and above all, chicken, grouse, quail and other birds, the sportsman will have been exceedingly plentiful this summer, but with the first symptoms of frost will be their way to the north.

Mr. George W. Loomis, the popular chief clerk of General Manager Holdrege of the B. & M., is the owner, possessor of possibly the finest gun in the northwestern part of the state making it merry for the chicken.

Theodore Wiseman is at the head of a hunting party up somewhere near Bancroft. They expect to remain through the shooting season, and expect to have great sport with the ducks and geese.

C. C. Claffin, with a party of congenial sports, is encamped on the north shore of Lake Superior. This prince of sportsmen will probably have a very successful season, and will return to the city.

R. D. Shoemaker is the owner of a handsome Gray Dane, the mother of thirteen fine puppies, one of the largest litters on record.

J. F. Ryan of the Bee, and Mrs. Ryan, have been the guests of Pat Sheehan, the sportsman, at his home in the northwestern part of the state making it merry for the chicken.

The long spell of excessively torrid weather has had a dampening effect, as announced by the sportsmen, upon the city clubs. Instead of holding regular weekly meetings, as of yore, the Bemis Park and the Omaha now assemble upon their grounds but twice a week, and at intervals of several days with each other. Next Saturday the Bemis Park will hold their first September shoot, and with good weather will doubtless have a large attendance.

W. D. Townsend, the accommodating chief clerk at the Cross Gun company, and wife, have returned from a delightful sojourn in the mountains of Colorado. They, with Miss Blaine Bassett, of Lincoln, and the wife of N. K. Bowler at his ranch in the North Park. Billy reports some glorious days with the mountain game, ducks and snipe, and says nothing of the snipe and mountain trout.

J. Nelson Stewart, E. A. Shepherd and Paul Ludington, left Friday evening for Kalamazoo, Michigan county, for a few days in the fall. They will be the guests of Charlie Jenkins.

Frank S. Parmelee, who is shooting in better form than for years, has been making some famous scores at the trap lately. He put in an afternoon after the upland one last week, and made a bag of twenty-one splendid birds.

J. J. Hardin shot a night heron one night last week while among the lakes in the sandhills. It is a rare and beautiful specimen, and he is being kept by Mr. Hardin. On the trip referred to Mr. Hardin also bagged 100 plovers.

E. A. Shepherd leaves for the Chickasaw country next month for a three week's deer, bear and turkey hunt. Mr. Shepherd is an enthusiastic sportsman, and a superb shot.

E. A. Mason and a friend, of the Richardson Drug company, left Saturday for Kelley's lake. Mr. Mason is an expert angler and their basket of fish embraced about forty-five pounds of bass, crappie and perch.

Big gray wolves infest the prairie and sandhill country round about the towns of Paxton and Sutherland. Hank Chestnut, foreman for Bratt, the big cattleman, with the assistance of three cowboys, ran a big 16-pounder down one day last week, and killed him. Paul Jantzen also reports of seeing a pack of seven, and says that both the prairie and big gray wolves are unusually bold and plentiful this fall.

C. E. Grinnell of Paxton, this state, was in the city last week, and says that there are as scarce his way as votes will be for

T. T. Shea of Council Bluffs and a party of three are in the vicinity of Valentine after chicken.

Billy Hardin and Henry Heywood left for Gordon, Neb., yesterday and will put in a week with the chicks and grouse.

Tom Majors, the hot weather, he thinks, has been extremely damaging to the birds.

County Commissioner Wisman of MePherson was in the city the other day. He reports chickens scarce, quail hot and small lakes and streams all dry.

T. A. Dean of Dunlap, Ia., came over on business a few days ago. He says the Dunlap shooters are not sleeping, but getting in fine shape and hope for a shoot with the Omaha sportsmen this fall. Mr. Dean says the show for ducks is the best for years.

There will be some great racing down at Lincoln next week. The state fair opens up on Monday, the 10th, and continues throughout the week. The racing will be for the five days is a superb one. The citizens of the Capital City have manifested great interest in these races, and as a consequence they are certain to prove highly successful. There are four events down for Saturday, and the track features include a race of most excellent sport. There is a large field of the best horses in the west on the grounds, and each competitor will be a treat to the eyes. The racing will include H. Glover, Grand Island, superintendent; W. H. Barstow, Crete, assistant superintendent; James Culbertson, Chicago, starter, and one of the best known in the country, and Mr. H. H. Gleason, secretary. All the railroads have made special rates and Lincoln promises to be lively indeed throughout the week. The program:

MONDAY, SEPTEMBER 10. Trotting, free-for-all, 500. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile.

TUESDAY, SEPTEMBER 11. Trotting, free-for-all, 500. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile.

WEDNESDAY, SEPTEMBER 12. Trotting, free-for-all, 500. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile.

FRIDAY, SEPTEMBER 14. Trotting, free-for-all, 500. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile. Trotting, foals of 1892, 2 in 3, half-mile.

Fair Fans at the Game. There has been a larger attendance of ladies at the ball games this summer than ever before, and the promise for an increased interest on their part next year is exceedingly bright. The management has catered especially to the patronage of the ladies, and next summer will inaugurate a system in their behalf that will make the game more enjoyable.

The woman ball crank is a queer sort of an article, and when she once gets interested in a game she will not let it go until she has seen it through to the end. She is not content with watching the game, but she will go to the game, and she will stay there until she has seen it through to the end. She is not content with watching the game, but she will go to the game, and she will stay there until she has seen it through to the end. She is not content with watching the game, but she will go to the game, and she will stay there until she has seen it through to the end.

Papa's Crop of Twisters. It used to be that there were not enough batters who could bat, and too many pitchers who could not pitch. But it is different now. God batters are as plentiful as 'skaters in a Jersey marsh, and good pitchers are as scarce as hen's teeth. Let us review Papa's 1894 crop. Big Jamison had great speed, but no command, and was 'chased' early in the season, brought back to the club by 'chasing' him. He had considerable speed, some tolerable curves, but neither head nor stamina. After making a good 'loss' for Omaha, he was fired. He went to Des Moines, won a couple of games, but he was not good enough to be kept. McMillin had the finest speed, and was very speedy at times, but couldn't make a win, especially on the home grounds, and was not good enough to be kept.

Will Chaperon Imported Shotgun. The Wilson bill puts a uniform duty on shotguns, and the following table will show the comparative duties on these guns under the McKinley and Wilson laws respectively:

Shotguns under McKinley law: 50.00. Shotguns under Wilson law: 30.00. Shotguns under McKinley law: 50.00. Shotguns under Wilson law: 30.00.

In speaking to Mr. Ours of the Cross Gun company on this matter he said: 'I have noticed no delay of trade on account of the new law being changed. Our customers throughout the state buy goods that they have seen, and I don't think the change will have any effect particularly on the sportsmen. People will buy just what they want for use anyway and this reduction of duty makes a reduction of about 33 per cent. It is a very desirable thing, and consequently be the same reduction in our selling prices. You have observed that when a man wants an imported gun he doesn't buy it until he has seen it. This is the same with the sportsmen. They will buy what they see, and they will buy what they see, and they will buy what they see.'

September Tours for the Tourist Wheelmen. Captain Walker extends a hearty invitation to all unattached or attached wheelmen who enjoy country riding to join with the Tourist Wheelmen on any or all of the following club tours for September:

September 9—Tappan, Neb., start 8 a. m.; distance, twenty-eight miles. September 16—Plattsmouth, Neb., start 7 a. m.; distance, thirty miles. September 23—Underwood, Ia., start 7 a. m.; distance, forty-eight miles. September 30—Tekamah, Neb., start 5 a. m.; distance, twenty-eight miles.

The past week has been tough one on our friends up the river, the Corn Huskers. Their club on the flag has been thumped and bruised until Watty can hardly remember it. It is now looking up, and if second or third place would be good enough for him. However, Omaha will still continue to root for the Iowa.

They are so close talking, but the game with St. Joe this afternoon will be a lull. Papa Bill says he must have it, and it is the case why he must, that's all. It

m.; third annual club century; distance round trip, 100 miles; time to be consumed, twenty hours, last of which will be spent in a handsome gold century club pin; dinner at Tekamah, lunch at Blair.

All runs under command of the captain and road officers, and subject to the road rules of the club.

The Last Trip of the Year. Papa Bill and his weather-beaten heroes are again at home for a few days' breathing spell on their own cellar door. They will mop up an acre or two of the earth with the St. Joe this afternoon and tomorrow, then wind up the season here with Buckeye Elmer's doughnuts on Saturday the last contest. Thursday next, both teams will turn their faces toward the east. The Reurkos open at Des Moines, Friday, the 7th. They will be away from home until September 23, when the championship season comes to a close at Rock Island. With today's game they have twenty more only to play. They will go away from home on the 24th, which occurs upon the last Sunday in September.

It is "Papa" Fleischer now. Ask Louie all about it.

The country roads leading out of Omaha are about as dusty as before the slight rains, and country riding is not as pleasant as it might be.

The Omaha Wheel club has decided to move into new quarters and will give up their old quarters at the corner of Seventh and Chicago, which has been their home for several years. The new quarters of the club house was a little too expensive during the "hard times" and this is their main reason for moving. New quarters have been secured in the Boyd theater building and will be fitted up as rapidly as possible.

The club will inaugurate a new move in the matter of memberships in the future and will become more of a social feature, recognizing the fact that a combined club is stronger than two clubs.

F. G. Barnett of Lincoln has demonstrated the fact that he is the fastest of the Nebraska "flyers" this season, being head and shoulders above the other aspirants to the honor and glory. At Kearney, Omaha, Denver and Council Bluffs he has pushed his wheel into the winning places and has won several hundred dollars worth of fine prizes.

His meetings at Council Bluffs were valuable, being training races, and he took the \$150; diamond ring, \$150; total value, \$300. He also broke the state record for a mile, this time, in competition with such good men as C. H. Gable, Omaha; W. A. Pyley, Kearney; and J. P. Lincoln, Omaha.

Gable, Omaha; W. A. Pyley, Kearney; and J. P. Lincoln, Omaha.

THE LAST YELPS OF THE SEASON. LIKE all things earthly the base ball championship season of 1894 comes to a sudden termination this week. Next Thursday will witness the last game. It will be with Omaha's old rivals, the Lincoln, and the result, an intensely interesting battle.

The season has been a remarkable one, unprecedented in many details, and the close of the season will leave the fans in a happy state. Indeed, it will make no difference whether the pennant for '95 floats over the Charles street bridge, or whether the game have enjoyed a great season's sport, and are correspondingly pleased and grateful.

The Western association started with a veritable boom, but under fortuitous auspices, good judgment and careful management, has developed into one of the best. There is one thing that is true, a true model so far as the minor bodies are concerned. It has gone through the season without a hitch or break, without the collapse of a single franchise, and in its accomplishment have their compensation. Of course they have been materially benefited by the season, and it is credit cannot be bestowed on President Rowe and his able corps of official associates.

They have fairly worked, and have done very well. One of his important duties is to break through when the other side is about to kick, and prevent the quarter back from passing it. If he can't do this, he should try to get in front of the ball and stop the kick. The guard must not stand up straight when he is to be bowled over, but should try to get in front of the ball and stop the kick. The guard must not stand up straight when he is to be bowled over, but should try to get in front of the ball and stop the kick.

The center has a very important and difficult position, since he always has the ball before him. He must be able to block the other side, and prevent the quarter back from passing it. If he can't do this, he should try to get in front of the ball and stop the kick. The guard must not stand up straight when he is to be bowled over, but should try to get in front of the ball and stop the kick.

in the last Sunday game of the season, and a team will surge through the gates. Every body will be in the work and excited to see Lilly Hollingsworth will be in the game, and so will Lilly Langford, Frederick Clausen will do the pitching for the Whispers of the Wheel.

UTURN is coming and the Tourist Wheelmen have discontinued their weekly evening club runs. The Sunday runs will be kept up, however, as heretofore. Captain Walker asks that the club members do a little more road riding this month, to get in shape for the fourth annual club century, which occurs upon the last Sunday in September.

It is "Papa" Fleischer now. Ask Louie all about it.

The country roads leading out of Omaha are about as dusty as before the slight rains, and country riding is not as pleasant as it might be.
